

SECOND HAND MACHINERY- REF. 505

Rewinder – Inspection machine ANDREOTTI make for processing defect free flexible materials		
1.	Year of manufacturing	1986 – completely overhauled
2.	Minimum/maximum cutting width	500 mm. – 1300 mm.
3.	Maximum web width	1300 mm
4.	Materials handled	Materials with gauge from 40 upto 350 gsm.
5.	Maximum reel diameter on unwinder	1200 mm.
6.	Inside core diameter on unwinder	70 – 75 – 152 mm.
7.	Max. diameter on rewinder	1200 mm.
8.	Inside core diameter on rewinder	70 – 75 – 152 mm.
9.	Max. production speed	600 m/1'
10.	Electrical power supply	380V./50Hz.
11.	Electrical power supply to ancillaries	110V./50Hz.
12.	Web working direction	From left to right viewing from operator's side
13.	Line composition	As to enclosed drawing S 00120RO.4
		- Unwinder
		- Tension control unit
		- Banana roller for web straining
		- Cutting unit
		- Reject gate (shoulder height reject control table) to manually select rejected material.
		- Rewinder holding defect free material.
14.	Price	Euro On request
	Sales terms and conditions	Location : ex works Ceprano Packaging : Excluded Erection and commissioning : Excluded
