SECOND HAND MACHINERY – REF. 587

UTEKO 8 COLOUR FLEXO PRINTING MACHINE – CENTRAL DRUM – WEB WIDTH 1200 MM.

Features :	
Manufacturer	UTEKO
Manufactured in year	2003
Model	AMETHYST 808.1M MOD. 120
Number of decks	8
Combinations	8 + 0
Web width	Max. 1250 mm.
	Min. : 50% of the max. web width
Maximum printing width	1200 mm.
Printing repeat	Min. 350 mm . (*) – max. 800 mm. (**)
	(*) For hard sleeve the min. repeat 350 mm. with max. thickness (clichés + cushion) < 1,7 mm. – min. repeat 360 mm. with max. thickness (cliché + cushion) < 3,2 mm. (**) Whereas the customer may use one single axis and wishes to reach the max. repeat , adaptors could be required .
Max. mechanical speed	300 mt/min.
	The max. speed is conditioned by different parameters such as : materials used , printing cylinder repeats , inks , solvents , lacquers used along with solvent residuals.
Working direction	From left to right with unwinding unit positioned between the central drum and the conditioning unit.
Materials to be printed	Paper 20 gr/mq. – 85 gr.mq.
	Polythene 30 µ
	PET 12 µ
	Nylon 15 µ
	However those materials which are workable within the tensions ranges given.
Tension range	2,5 ÷ 40 kg.
Inks	Solvent based (machine is flame proof)
Gear pitch	Pith 5 mm. – module 1,5915 helical pressure angle 20°
Supply tension	380/400 V. with earth and without neutral

Price :

Location : Italy

Status of the machine: IN PRODUCTION

This is a net price , i.e.: it does not include commissioning , transport , assembly or any other kind of costs.

The machine is offered on “ **as it is / where is** ” basis .
