PRE-OWNED MACHINERY- RIF.562

Solvent laminator plus 1ROTOGRAVURE unit for COLD.SEAL or LAQUERING model VARIANT V 12 – ACOM make

1.	Manufactured in year	2004 – RUNNING SINCE 2005
2.	Max. web width	1350 mm.
3.	Max. coating width	1300 mm.
5.	Min. web width	700 mm.
6.	Max. unwinder diameter	1000 mm.
7.	Max. rewind diameter	1000 mm.
8.	Inside core diameter	- Unwinder 70/76/152 mm. - Rewinder 152 mm.
9.	Range web tension:	2÷50 Kg.
10.	Max reel weight:	1200 kg.
11.	Repeat rotogravure cylinder:	400- 950 mm.
12.	Max. mechanic speed	500 m/min.
13.	Max working speed	400 m/min.
14.	Drying System:	Gas
15.	Max temperature inside of the tunnel:	130°C With room temperature at 20°C
16.	Machine direction	Web running from left to right
17.	Processes performed (type of application):	• Dry lamination with Solvent adhesive • Dry lamination water based adhesive • 1 color Rotogravure (even with register) • Lacquering with rotogravure unit • Cold seal with register
18.	Materials handled	Paper 20-150 gr/m2 BOPP 12-60 my PET 8-40 my PP 30-150 my Rigid PVC 15-100 my NYLON 20-130 my BOPA 12- 100 my ALU 9-50 my (in the second unwinder 6.30 my) The rewinder is able to work with material up to 200 gr/m2
	In the machine is equipped with the mechanical facilities to accept the wheel-in trolley for solventless coating . This specific trolley is not included in the supply .
